#### Disclaimer

GS1<sup>®</sup>, under its IP Policy, seeks to avoid uncertainty regarding intellectual property claims by requiring the participants in the Work Group that developed this document to agree to grant to GS1 members a royalty-free licence or a FRAND licence to Necessary Claims, as that term is defined in the GS1 IP Policy. Furthermore, attention is drawn to the possibility that an implementation of one or more features of this Specification may be the subject of a patent or other intellectual property right that does not involve a Necessary Claim. Any such patent or other intellectual property right is not subject to the licencing obligations of GS1. Moreover, the agreement to grant licences provided under the GS1 IP Policy does not include IP rights and any claims of third parties who were not participants in the Work Group.

Accordingly, GS1 recommends that any organization developing an implementation designed to be in conformance with this Specification should determine whether there are any patents that may encompass a specific implementation that the organisation is developing in compliance with the Specification and whether a licence under a patent or other intellectual property right is needed. Such a determination of a need for licencing should be made in view of the details of the specific system designed by the organisation in consultation with their own patent counsel.

THIS DOCUMENT IS PROVIDED "AS IS" WITH NO WARRANTIES WHATSOEVER, INCLUDING ANY WARRANTY OF MERCHANTABILITY, NONINFRINGMENT, FITNESS FOR PARTICULAR PURPOSE, OR ANY WARRANTY OTHER WISE ARISING OUT OF THIS SPECIFICATION. GS1 disclaims all liability for any damages arising from use or misuse of this Standard, whether special, indirect, consequential, or compensatory damages, and including liability for infringement of any intellectual property rights, relating to use of information in or reliance upon this document.

GS1 retains the right to make changes to this document at any time, without notice. GS1 makes no warranty for the use of this document and assumes no responsibility for any errors which may appear in the document, nor does it make a commitment to update the information contained herein.

### **1** General information and purpose of the guide

In this guide you will find instructions on how to use the GS1 DQX Upload Tool for your GS1 DQX operation to provide product images/artwork of your products for the visual validation process.

- At GTIN level, you have the option to choose whether you want to use this delivery route or the standard route via GDSN.
- Mixing supply channels for one GTIN is **not** possible. If product images/artwork via the GS1 DQX Upload Tool are available, **only** these will be used for the visual validation.
- The product images/artwork provided via the GS1 DQX Upload Tool are provided exclusively to GS1 DQX and only for the purpose of visual validation. These files are never dispatched to other data recipients.
- The maximum file size must not exceed 10 MB.

#### Follow these steps to gain access to the GS1 DQX Upload Tool:

- Please contact the GS1 DQX Support via e-mail and include your GLN: <u>dqx-support@gs1.de</u>.
- Please contact the GS1 DQX Support by phone: +49 (0) 221 94714-690.

#### Follow these steps to open the GS1 DQX Upload Tool:
