1004	Document identifier	R an..35			Invoice number A number which identifies the invoice. It is generated by the issuer of the invoice and is a sequential number. This number is assigned by the sender of the message The recipient of the message quotes the invoice number on payment and/or in the payment specification The invoice number can then be used to match the payments and the outstanding invoices. Consequently it is recommended that the invoice number is assigned a sufficiently unique number which is, for example, unique for a period of 1 year.
