

The Global Language of Business

GS1 Germany Solution Partners

The network of experts for optimised business processes

Solution
Partner

Solution Partners of the value chain

The benefits for your company

Future-orientated solutions
based on the GS1 standards

Tailor-made consulting by
experienced specialists

Comprehensive expertise
relating to GS1 standards
and processes

Increased investment security
for your company

The standards come from GS1 Germany – the GS1 Germany Solution Partners handle practical implementation. Whether the introduction of Electronic Data Interchange (EDI), automated warehouse and logistics processes or the support of optimal Category Management processes is concerned – successful implementation of the GS1 standards requires specialised expertise and customised solutions. That is precisely what the GS1 Germany Solution Partners offer: The selected service providers support companies from the widest range of industries in optimising their value chain on the basis of the generally recognised GS1 standards.

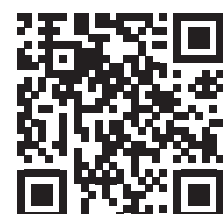

You can profit from strong partners: Working with these experienced experts creates investment security when implementing new systems – also for small and medium-sized companies.

Finding the right partner

GS1 Germany Solution Partners can be recognised by the associated logo and certificate. You will find the right contact for your project and further information on the range of services offered on GS1 Germany's website at www.gs1.de/dienstleister.

Competent and well connected

The GS1 Germany Solution Partners promote the implementation of GS1 standards and process recommendations. The members of the community have direct access to the comprehensive expertise of GS1 Germany, profiting from joint projects, the network to other service providers and information about developments in the standards which they obtain at an early stage. Selected members of this group also employ their solutions to make the standards tangible in the live components of the Knowledge Centre.

Solution Partners – always up-to-date.
